Subject: RE: Louisiana Department of Insurance -- Answer to your question

You and the Department are to be commended. I certainly appreciate the very quick and thorough response. How I wish that all those I deal with daily were as prompt and conscientious in their dealings.

Sincerely.

Rick Melancon

Subject: Louisiana Department of Insurance -- Answer to your question

The question that you submitted to the Louisiana Department of Insurance was answered.

You asked:

"My Life, Health and Accident license expired 05/01/04. (1)--What would be the latest date that I can have it reinstated? (2)--At that time, other than the current renewal license fee, current year's late fees, the current year's required continuing education requirement documents and the application for reinstatement would anything else be required? (Thanks for the help) "

The response to this question was:

"You have five years after the date of expiration to reinstate your license. In order to reinstate the license, you will need the attached form, \$100.00 and 16 hours of continuing education. The Commissioner of Insurance wishes to thank you for submitting your question. By asking us questions, we are better able to understand your needs and improve our services. Sincerely, Christi Rector Insurance Examiner "

If you require further assistance, please reply to this e-mail and include the reference number: 10488

The Commissioner of Insurance wishes to thank you for submitting your question. Hearing from you helps us to better understand and respond to your needs. If you have other questions or comments, please let us hear from you again. Thank you.
